

## DEPARTMENT OF VETERANS AFFAIRS

### Veterans Health Administration

Date 2003

Dear Veteran:

The VA will now use **zolmitriptan (Zomig®)** for treatment of migraine headaches. **Zolmitriptan** is safe and works in the same way as other agents such as sumatriptan (Imitrex®) or rizatriptan (Maxalt®). Your doctor has agreed to change your medicine to **zolmitriptan**.

- You will get zolmitriptan at your next refill.
- Most patients will take an initial dose of **zolmitriptan** 2.5 mg. A few patients will take 5mg. Please read the directions on your label when you get your medicine in the mail.
- Call the pharmacy or your doctor if you have any questions or problems with the change in your medicine.

Sincerely,
